Dear Marden Parish council,

I am writing to you to inform you that Marden has no longer got it's beautiful grassy ~~glades~~ forests or naturally ~~so~~ dazzling wildlife. Marden has been famous for it's living wild animals but sadly we are destroying it.

Imagine, one day we will see Marden as a town or a litter infested town. What would you do to save Marden and leave it a humble village as it always was? Are you going to finish building what you are building and discuss different matters?

I do hate having to write to you to stop this. This is mine and the villagers' LAST hope to stop this destruction. As a matter of fact, the busy traffic has burnt so many fossil fuels I cough when I am waiting to go to school (It's true!)

I really hope you consider stopping and settling down to relax. Please have a good day, best wishes.
